THE PRACTICE OF CHRISTIAN STEWARDSHIP

Golden Text: Thou hast been faithful over a few things, I will set thee over many things; enter thou into the joy of thy lord.—Matthew 25:21.

Lesson: Matthew 25:14-30.

Devotional Reading: 2 Corinthians 9:6-11.

Explanations and Comments

1. The Commissions, verses 14, 15. Jesus is speaking to His disciples about the Kingdom of Heaven, and he begins a parable by saying that the situation is comparable to that of a man who, about to go into another country, calls his servants and delivers to them his goods. "The story is true to the oriental life of the period; for, when a wealthy man was leaving his home for awhile, two courses were open to him for the arrangement of his affairs; either he might make his confidential slaves his agents, committing to them the tilling of his land, and giving to them his money to be used by them in trade; or he might take advantage of the money-changing system which had been introduced by the Phoenicians, and which was at the time in full operation throughout the Roman Empire." (Wm. M. Taylor).

In his interpretation of the parable, the "man" represents Christ; his "goods" stand for all possessions—life, physical and mental powers, etc.—which are represented as God's property, entrusted to men, his servants, as a loan.

The servants were all trustworthy, but they differed in capability, and the master apportioned his goods among them according to his judgment of the ability of each. Unto one he gave five talents, to another two, and to another one. Even the one talent represented a considerable sum, about one thousand dollars, whose value is recognized when we recall that a denarius was a day's wage, and a talent was the equivalent of six thousand denarii. In the interpretation of the parable, the "talents" are the "goods," whatever is given to each one for use and improvement. Our use of the word "talent" to signify mental gift or skill in accomplishing anything is derived from its use in this parable.

Refuse Import of Camels From Russia

Danger of Spreading Foot and Mouth Disease Says Minister of Agriculture

"Is it true that camels are to be imported from northern Russia for farm work in the west," was a question asked of the minister of agriculture, Hon. W. R. Motherwell, with regard to a despatch to this effect from Saskatchewan.

"Are the camels coming," said Mr. Motherwell, "from Russia, did you say? No, I think not. Much as we sympathize with the point of view of the group of farmers who are making the request for assistance in this matter, it would be detrimental to their interests as well as the interests of the whole country owing to the danger of bringing in foot and mouth disease."

"We wouldn't import four-footed live stock of any kind from northern Russia, cattle, horses or hogs for that matter, because of the prevalence there of foot and mouth disease."

listening to me, that every soldier you knew of went away to fight with a girl's kiss on his lips. I remembered you said soldiers seemed to be satisfied with their girl, anyhow, if other people did distrust them. Foreman had the same idea. So I adopted it. It's caught."

After a time restraint settled between them again. They went into the moonlit grounds for a turn among the gardens. They came upon a litter of timber. "I'm having a pavilion built," Joanna explained, "for the dancing at my fete. I'm having a party you know!" she volunteered, "early next month. Everyone expects something of the sort among the villas down here, and I'm going to do my best. It was Brandon's idea. He and Yvonne are supervising the details. I'm spending the money. We shall make it something to talk about."

"Yes," John murmured, "all that you do—with the money that was given to you, seems to make people talk. I've heard much. In London, in Paris, and even during the single day that I've been here. I asked the concierge at the hotel if he knew where the Villa Amette was. 'Oh,' he said 'Where the Golden Girl lives? It's a

misad at the Opera. Lady Weymouth, Teddy Dorminster's blithe sister, was entertaining in her box. One of the grand dukes, a Pasha from Constantinople who was interesting because of the general speculation that peopled the chambers of his Bosphorous palace with a bevy of languorous hours, and a demi mondelle from Paris who had married an American millionaire and was amusing by her efforts to acquire properties, were to be of the party. Lady Weymouth would have been desolate if the Golden Girl and the exotic Yvonne did not appear to perfect the mixture of spice and fashion.

"As you will be promptly possessed by 'Teddy,' Yvonne remarked to Joanna, "I shall take charge of Mr. Willmore. If Brandon and Roddy turn up they must create their own devices."

When the two women came down from the esoteric myseries of their boudoirs it was Yvonne who summoned John to join her in a cocktail before they entered the car that awaited to take them back to Monte Carlo. On the drive in from Amette it was Yvonne who talked with him, who dazzled him, led him into the subject always eager within him, his romantic project, and clothed it with the charm of her own sympathetic understanding. Joanna, silent, was almost forgotten until the car drew up at the Casino gardens. There, Dorminster appropriated her, Yvonne, allowing John to reach in his hand to help her from the car, put her fingers into it, and allowed them to rest there until color came into his face.

Baby's Own Tablets Are Effective and Easy to Give

You do not have to coax and threaten to get the little ones to take Baby's Own Tablets. The ease with which they are given, as compared with liquid medicines, will appeal to every mother. As a remedy for the ills of childhood arising from derangement of the stomach and bowels they are most satisfactory.

Mrs. Rose Veyer, Willmantic, Conn., says:—"I used Baby's Own Tablets in the Canadian Northwest and found them a wonderful medicine for children's troubles, especially indigestion and constipation. I have also given them to my children for simple fever and the restlessness accompanying teething and they always gave relief. I can recommend Baby's Own Tablets to all mothers."

Says Mrs. Elliott of Dodd's Kidney Pills

Alberta Lady Strongly Recommends the Use of Dodd's Kidney Pills to all Sufferers.

South Edmonton, Alta., (Special).—"I have used your Dodd's Kidney Pills for a few years and for kidney and backache trouble they have worked wonders. I have great faith in them. I have great praise about them from a number of people in our district."

This statement comes from Mrs. Elliott, who resides at 9324 70th Ave. The relief that Mrs. Elliott found has come to thousands of other Canadian women through the use of Dodd's Kidney Pills.

There are only a few people who appreciate the great importance of keeping the kidneys in good order at all times. The kidneys are the purifiers of your blood. If the kidneys become clogged with impurities they cannot perform their functions properly. The blood, instead of being purified, is poisoned, and in turn poisons the whole system, with the result that a condition may develop very serious.

It is simply weakness, a breakdown, as it were, of the vital forces that sustain the system. CHAPTER XXVI.—Continued.

"You mean me?" The challenge was so sudden, so relentless, that he started.

"But we mustn't go into that, now," he objected. "We've both turned out differently than either of us expected. Let's just accept each other as we are, and be content."

"Oh, but we are not going to do that at all, John!" she exclaimed, suddenly gay. "We're not accepting each other. You're much too great and too serious and preoccupied for me. I'm much too frivolous for you. You've told me all that before, and you'd made up your mind about me. I'm just downright glad to see you, because I shared those dreams of yours, you know, and I'm so glad to see you winning your way. You're out of the past, the silk counter past, and I'm out of the past, the Mrs. Adams past. That's all it is, isn't it?"

"I had hoped it would turn out to be more, he said, shortly.

"That's the trouble with hopes," Joanna observed. "We build so much into them and it takes so little to blast them!"

In the long, low ceilinged dining room of Villa Amette, they sat across from each other over a table of exquisite napery and massive silver

things. A butler and the serving maid stood silent, immobile between courses, at the end of the spacious room. It wasn't at all like the dingy, coffee odored restaurant around the corner from John's work room in New York, where they used to "save carfare," as she had called it, by doing the best they could for thirty cents apiece. "You must tell me all about it, now," Joanna prompted him, when the servants stepped back to their post: "You must begin at the beginning. Your letters have been so rambling. I don't know at all what happened to bring you out of your workroom into fame. It is as mysterious to me as my own situation still is. He told her with the air of one who repeats an old story. He thought he had explained it all in his letters.

"I was called in, one day, by Mr. Foreman, you remember, head of the firm I worked for? He swept me off my feet by asking if I had not some idea of a memorial, and he described to me just what you and I had talked over so much. We spent an hour over it. I think I got enthusiastic. He reminded me that several times I had spoken of it in the draughting rooms to the other boys. One of them I suppose, had mentioned it to him. The firm always was interested in the ideas of its apprentices. And he had passed the thought on to someone who, he said, had become concerned. That's all there was to the start of it. Things just happened suddenly.

"They do, sometimes," Joanna remarked.

"Foreman took me to his house. Two or three of our great architects were there. I had my plans—those plans I used to show to you, Jo. The ones you said made your head dizzy. Then it happened! Someone who is close to Foreman put up the money for me to go ahead. It was promised me that all funds necessary would be found to make the idea materialize. Some societies were interested, contributions began to pile up. Discussion began. Money was made available for me to work out and build a huge model. I've almost finished that, now. Whatever I need in the way of help is available when the model is finished, I am assured. There is to be world wide competition among sculptors for the figure of the girl that will surmount the great dome. That's all. Foreman knows the backers. I don't."

"But the thought of the girl, John; that's an original idea, and new, wasn't it? And it's so splendid."

John was silent a moment. Joanna kept her glance on his face. "That is an odd circumstance," he said, slowly. "During that first interview with Mr. Foreman, when he brought up my secret idea, he made the suggestion of symbolizing the romance behind the soldier with the figure of a young girl, representing the youth of all ages. He had worked out that thought himself, or it had been worked out for him. Strangely, too, it seemed to me you had said one time, when you did bother your head by

gay place, M'sieur. Anyone will show you the way! And, fancy, you gave them something to talk about at the Casino this afternoon. You're having a bright time with your money, aren't you Jo?"

"You mean to say, don't you, that I'm frivolous, is that?"

"You don't seem to have accomplished much," he returned. "It's quite as I told you, in New York, isn't it?"

"Quite," she agreed. "I'm just a daughter of the Babylonians, John. A daughter of the Babylonians today. People say my motto is, Filrt, Lure, and Venture. I'm not the kind of a girl, John, you'd put on your pedestal, am I?"

He wouldn't answer in words; yet Joanna understood that he did answer eloquently. And the shadows in her brown eyes were deeper. Yvonne recognized the depth of them when she returned, having left Kenilworth behind.

Both Yvonne and Joanna were pro-

HOCKEY

Didsbury puts up good game against Okotoks

In a hard fast game, Didsbury was trimmed by Okotoks 9-6 last Tuesday night.

In the first period, Didsbury was on the go from the start, Lloyd Liesemer scoring the first tally for Didsbury.

In the second period, Okotoks forced the play and scored two goals.

The third period showed some real fast hockey all through, the spectators being worked up to a high pitch of excitement. Okotoks took the lead and scored two goals in succession. Then Didsbury forced the play, and by some fine combination work, scored three goals and evened up the score. Okotoks finished the period by scoring three more goals, thus making the score 9-6.

Line-up for Didsbury: Clemens goal; Studer and Reiber defence; Lloyd Liesemer, Doc. Liesemer, C. Cook, E. Evans, forwards. T. Gilman of Carstairs was referee.

The third period witnessed a bad accident to Clint Reiber, who, in falling upon the ice, was struck in

The matter of enlarging the rink was also discussed, and Messrs. Watt, Fisher, Studer and McNaughton were appointed to confer with Rinks Ltd.

The new skips elected are as follows:—Bellamy, Chambers, Cook, E. Cressman, Edwards, Fleury, Johnson, W. Hardy, H. Liesemer, Mertens, Moyle, McDougall, Sanderman and Weber.

Victim of Nervous Indigestion, Loss of Sleep and Intolerable Pain, Father of 8 Children, Finds Long-Sought Relief. Strength Restored. Praises Tanlac.

"I was suffering untold agonies when I began taking Tanlac. My strength had vanished. I couldn't work efficiently. I couldn't enjoy life as other men did. I had lost weight and was wracked by knife-like pains."

"I was completely discouraged when Tanlac was recommended to me and I took it. I recommend it to anyone who is ailing."

"This tonic worked wonders with me. Quickly my old strength returned. I began to have a great appetite and ate everything without a sign of pain. Once more I knew what it was to have a good night's sleep. Tanlac certainly put me on my feet, made me stronger and gave me better health than I have had in years."

Survivors Of a Bygone Age

Newspapers throughout Canada recently printed accounts of a decision reached by the ratepayers and trustees of a school district in Ontario which is almost unbelievable in this day and generation. The little school house in this particular district is lighted by oil lamps, and, according to the teacher, for at least twenty-five days in the year the light is so poor the children can hardly see the blackboard. Under the circumstances a community club offered to pay the cost of the installation and maintenance of electric light, an offer which presumably the school district officials would be only too glad to accept.

On the contrary the offer was refused and the reason for refusal was that oil lamps were good enough years ago and consequently were good enough now; that, in a word, what was good enough for their fathers and grandfathers was good enough for their children and grandchildren.

If the ratepayers of this Ontario school district are consistent, one is forced to the conclusion that they still carry on their farming operations with hoes and rakes, hand sickles and scythes, seeming to use modern farm machinery; that they plod to town with a yoke of oxen, and utterly despise such new fangled notions as railway trains or automobiles; telephones, telegraphs and radio must be anathema to them.

Fortunately for Canada there are few people of the same mind as these Westminster township school ratepayers. It was not men of this type which built up this Dominion. Rather, the pioneers who came first into Eastern Canada and later pushed out over the almost limitless expanses of the prairies were men and women determined that, whatever hardships they had to undergo and put up with, their children and their children's children should be better off. They were most decidedly of the opinion that what was good enough for their grandfathers was not good enough for them, and the best was not a bit too good for their children. Consequently they conquered the virgin forests and the virgin prairie, made homes, constructed roads and railways, built cities, schools and universities, and made Canada what it is today.

This constant urge and striving for something better, this insatiable demand for development and improvement, is the glory of mankind, the distinguishing mark between man and the beasts. In it is to be found the secret of all progress. Without it the world would stagnate, deteriorate, and become irretrievably lost.

It may be that some of the younger generation of today are demanding too much; that they insist upon beginning life where their fathers left it, and expect ease and comfort and the rewards which labor alone can bring without expending the effort which all must make if they would really enjoy life and prosper in this world. But placing a proper restraint upon such ill-advised desires, and curbing such youthful folly, is an entirely different thing to depriving the children of today of the advantages with which science, invention, and years of enlightenment has blessed the world.

Apparently this little group of ratepayers and school trustees are not only willing to endanger the eyesight of their children but would condemn them to lead the same benighted, ignorant and unprogressive lives they apparently are content to live. We venture to predict the children will rebel and at the earliest possible moment break away from their home environment and launch out into the world of light, progress and advancement.

The surest guarantee of keeping the boys and girls in the old home district, and preventing them from flying off to the cities and other faraway fields presenting green luster, is to make the old home surroundings as up-to-date and attractive as possible, thereby providing a powerful rival to that other world which beckons. If parents and communities realize this and act accordingly, they will also find they have a great ally in the appeal which home always makes to every boy and girl.

The ratepayers and school trustees of Westminster township, Ontario, provide a horrible example of how not to do things.

Queer Rite Observed

By Hindu Pilgrims

Circle Sacred Places by Series of Prostrations

When Hindu pilgrims visit a sacred place they go around the spot by a continuous series of prostrations.

They carry a stone in their hands and when they drop on the ground they stretch their arms out as far as possible and leave the stone on the ground so as to measure their length.

Then they arise, walk the six or seven feet to the stone, and pick it up. Again they prostrate themselves, leave the stone, arise, and so on until they have returned to the starting point.

Many of the circuits are more than three miles in length, and it requires an entire day to make the whole trip.

Each mile usually requires one thousand prostrations, and when a devotee has dropped three thousand times he is so nearly dead that he rolls over in the dirt to the side of the road and rests there until the next day.

A WEAK STOMACH

Can be Strengthened Through the Use of Dr. Williams' Pink Pills

Wonderful is the process by which the chemistry of the body changes the food we eat into blood. And the whole of our well-being depends upon this being maintained day after day, year in and year out. Sometimes the process becomes faulty, and then food begins to poison the blood instead of feeding it. This is followed by all the pains of indigestion, such as gas on the stomach, pains around the heart, often nausea after eating, and a dislike for all kinds of food.

The only way to overcome these troubles is to tone up the digestion so that you can assimilate all your food. To do this you have only to take Dr. Williams' Pink Pills. A short course of these pills will quickly tone up the stomach and banish indigestion. Here is a bit of convincing proof given by Mrs. Chas. Lader, Ellerslie, P.E.I., who says: "For some years I was a sufferer from stomach trouble. Everything I ate caused distress, sour stomach and belching. I could not eat meat or potatoes, and I grew weak and nervous. No medicine seemed to help me until I was persuaded to take Dr. Williams' Pink Pills, and these simply worked wonders. I took the pills faithfully for a couple of months by which time every symptom of the trouble disappeared, and there has not since been the slightest symptom of stomach trouble. No wonder I praise Dr. Williams' Pink Pills."

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

BRITISH AND CHINESE IN RACE FOR SHANGHAI

London.—The race, for Shanghai, prize city of the Orient, is on between the British army and navy, and the Chinese Nationalists. The Cantonese conquest of the great international settlement at the mouth of the Yangtze, where 40,000 foreigners reside and many foreign refugees from all parts of China are now gathered and where the immense foreign trade interests of China are centred, must be accomplished within six weeks if the Cantonese are to avoid dealing with the British defence force of 20,000 men, who are hurriedly leaving or will soon leave English ports, Malta and India.

It is repeatedly emphasized by the British foreign office, however, that there will be no clash between the British and Cantonese unless British lives and property in Shanghai are endangered. The British defence force will make no effort to prevent the Cantonese from entering and occupying the city of Shanghai if they are strong enough to do so.

The British maintain that the question of the control of Chekiang province, right up to the limits of Shanghai's international settlement, is a problem to be settled by the attacking forces of General Chiang Kai Shek, commander of the Cantonese troops, and the defending army of Marshal Sun Chuan-feng, ruler of Chekiang.

Should Shanghai itself be threatened either by actual fighting or by the rabble of a Chinese army, the British defence force, together with the Shanghai volunteer organization, and whatever forces Japan, United States and France have available, would probably be employed along the 21-mile line, which would completely cut off Shanghai from the interior and render the city unassailable from Chinese attacks or occupation. This 21-mile line has been defended on previous occasions by volunteers and foreign detachments when Chinese civil war threatened the city.

Ottawa.—Abolition of the government sales tax of 5 per cent. on all men's and women's wearing apparel was requested by a delegation representing Canadian wholesale and retail garment industries which waited upon Hon. J. A. Robb, minister of finance. Mr. Robb intimated that the request would be given consideration.

Population of Saskatchewan

Ottawa.—The population of Saskatchewan was 821,042 at the census taken on June 1 last. This is announced in a preliminary statement issued by the Bureau of Statistics. The result shows an increase of 63,532 over the census of 1921.

Ten Chinese Executed

Peking.—A telegram from Foochow says General Ho Ying-ching, Cantonese commander there, arrested 200 Chinese connected with the recent anti-foreign rioting and executed ten of them.

Fifty-Eighth Annual Meeting of The Royal Bank of Canada

The fifty-eighth annual general meeting of The Royal Bank of Canada, held at the head office, marked the close of a very successful year and was attended by a large gathering of shareholders.

Several announcements of special interest were made both by Sir Herbert Holt, president, and C. E. Neill, general manager. In his address, Sir Herbert Holt gave a complete review of the outstanding features of the growth in Canada's trade and industry and took the view that during the past year there had been steady and substantial improvement in almost every department of Canada's business life.

Discussing the necessity of the reducing of all taxes, Sir Herbert said: "What Canada needs is to follow the example set by the United States in the reduction of all taxes and in the cost of government, so that by economies due to the efficiency of administration we may secure a substantial reduction in the total burden of taxation rather than a change of incidence. Canada has frequently shown that she is not without courage in facing her economic problems, and there are indications that a bold co-operative policy of administrative economy on the part of all governments would meet with strong public approval and support."

Thinks India Should Help Protect Shanghai

"Times" of India Believes it Duty of Government

Bombay, India.—The view expressed by Nationalist newspapers that troops from India should not be sent to China, is not shared by the "Times" of India, which considers it the "plain, irresistible duty of the government", to secure the protection of the international settlement in Shanghai so long as that security depends upon existing treaties. "There is a large Indian community in Shanghai and very important Indian commercial interests there; it is just and proper that troops from India should share in this essential duty," the Times points out.

Talk of war with China is nonsense, in the opinion of the Indian Daily Mail, which says that protests against sending a contingent to China are not well advised, "since the prompt despatch of a contingent may prevent further aggravation of the conditions in China and promote a peaceful settlement."

Cannot Accept Contract

Boy Swimmer Would Not be Used in Picture Until May

Hollywood, Cal.—George Young, Canadian youth who won the \$25,000 prize in the recent Santa Catalina channel swim, failed in his first attempt to break into the films and further capitalize his new fame.

Negotiations between Young and Famous Players-Lasky, in whose studio he recently underwent film test, were dropped when it was found it would be impossible for the producers to use the swimmer in a picture until May. Young's managers insisted the filming must start at once in order to release him for vaudeville tours.

The producers said Young's film tests showed the youth to have a "pleasing screen appearance."

Pool Wheat Via Western Ports

Huge Quantities of Grain Exported Via Vancouver and Prince Rupert

Vancouver.—The Alberta wheat pool has shipped nearly 8,000,000 bushels of grain from Vancouver this year to date and expects to move a total of approximately 20,000,000 bushels by the close of the season, George Melvor, sales manager of the pool, announced here.

From Prince Rupert the pool has shipped 3,500,000 bushels of grain, mostly to the United Kingdom, and expects to reach the 6,000,000 bushel mark before the season ends.

Butter From New Zealand

Montreal.—Twenty-five thousand boxes of New Zealand butter, each box weighing 56 pounds, will be landed at Halifax, N.S., by the steamship Arawa, some time around February 18. Montreal produce men here declared that due to the demands of the U.S. for Canadian cream and milk, the domestic butter supply was insufficient for the needs of Eastern Canada.

ONTARIO AGREES WITH QUEBEC ON THIS QUESTION

Toronto.—Complete agreement with the position taken by Premier Taschereau of Quebec to the effect that no changes should be made in the constitution of Canada without reference to the individual provinces was expressed by Premier Ferguson here.

"Mr. Taschereau is entirely correct in his view," said the premier. "The constitution is an agreement arrived at among the provinces as the result of a conference between them. It would be essential that any amendments to it should similarly be submitted to all the provinces and receive their consent."

"Not only do we agree with what Premier Taschereau has said, Ontario herself would protest, and protest vigorously, if it were proposed to make any change in the constitution without consulting her."

'Flu Takes Toll in Britain

667 Deaths From Epidemic Are Reported in One Week

London.—A wintry spell last week has caused the recent epidemic of influenza, which has been prevalent in many parts of Europe, to tighten its grip on Great Britain, 667 deaths being reported in Britain for the week ending Jan. 26.

The official death roll in the county of London has shown a steady increase during the past three weeks, the figures being 72, 137 and 197. The reports from 105 large towns apart from London for the same period of time shows 172, 326 and 479 deaths.

In some of the poorer districts of London people have had to stand in line to obtain death certificates.

Hundreds of school teachers are ill while some small shops in the East End have put up their shutters and placed a notice on the door: "The whole family is ill of influenza. Will re-open when better."

Settle Wage Dispute

Thirty Thousand Rail Shopmen Affected by Scale Revision

Montreal.—Settlement of the wage dispute involving 30,000 rail shopmen on nine Canadian railroads was announced here by the Railway Association of Canada. The men asked for 10 cent an hour increase. Settlement was effected on a basis of increases between two and four cents an hour. The agreement is the result of negotiations which have been proceeding for some months between the Railway Association of Canada and Division No. 4, Railway Employees Department, American Federation of Labor, representing employees in railway shop trades. The revision of certain working conditions was also effected.

Would Free Charitable and Educational Institutions From Income Tax

Ottawa.—Exemption of all contributions to charitable and educational institutions from taxation under the Federal Income Tax Act was requested by a deputation of prominent Canadian citizens which waited upon the government.

Hon. J. A. Robb, Minister of Finance, who, with Hon. J. L. Ralston, Minister of National Defence, and Hon. W. D. Euler, Minister of Customs, received the delegation, stated he would take the matter up with officials of his department and then lay the whole situation before his colleagues.

Included in the deputation were such prominent men as Sir Arthur Currie, Sir Lomer Gouin, Sir George Foster.

Sir Arthur Currie stated the deputation represented more than 400 Canadian institutions from coast to coast.

Big Colonization Plan

15,000 Settlers to be Located in Three Western Provinces This Year

Calgary.—Three thousand families, or roughly speaking, 15,000 people, are assured for settlement on the three prairie provinces during 1927. T. O. F. Herzer, manager of the Canadian Colonization Association, told the representatives of the various colonization boards "when they met in conference here. Mr. Herzer explained that this meeting differed from other colonization conventions in that its object was not the attracting of settlers but to finding out how many of the 3,000 families, known to be coming to the West this year, could be taken care of in Alberta.

"Our purpose of meeting here," he said, "is to take an inventory now to find how many can be placed on land in this province on Canadian Pacific Railway land, on private land, rented land, and on Government-owned land."

Mr. Herzer emphasized the fact that there was no attempt to replace Canadians by "half-baked Europeans."

Election Was Unanimous

Captain D'Oisy Named World's Outstanding Aviator of 1926

Paris.—Captain D'Oisy, French aviator, who has distinguished himself with flights to French Indo-China, Russia and other parts of the world, has been named by the International League of Aviators as the world's outstanding aviator of 1926.

Sir Alan Cobham, of England, who made a round trip to Australia, was also named on the first ballot, but, D'Oisy's election later was made unanimous.

In England there is one telephone to 27 inhabitants, compared with one telephone to every seven in the United States.

SERVICE LEAGUE FOR SOLIDARITY OF THE EMPIRE

Winnipeg.—Momentous questions on Empire relations, immigration, soldier settlement and organization were cleared from the agenda before the national convention of the Canadian Legion of the British Empire Service League.

The report on Empire relations, which was unanimously approved by the convention, calls for the adoption of a Dominion policy directed towards harmonious relationships within the British commonwealth of nations and that the solidarity of the Empire be assured by the exercise of practical measures of immigration, industry and education.

The report was described by one speaker as one of the most "notable documents" ever drawn up in the country. The committee responsible for its construction was composed of Dr. G. H. Wale, mayor of Hanna, Alta.; Brig-General Sir Richard Turner, Quebec City; Brig-General F. S. Meighen, Montreal; E. E. Spencer, Morden, Man.; and Col. J. McAr, mayor of Regina.

The outstanding recommendations of the report provide for:

Migration and land settlement within the Empire; development of Empire markets for all products; suppression of foreign literature and films whose influence is antagonistic to British ideals; development of the spirit of Empire among the people of the Dominion as an offset to dangerous foreign activities; introduction of text books in schools of British composition and manufacture; safeguarding of Empire contracts.

Another provision of the report stipulates that the Canadian Government be urged to enter negotiations with the British Government for an agreement under the Empire Settlement Act for as large a volume of suitable British settlers and as great an amount of British capital for development purposes as possible.

May Establish New Town

Paper Mill to be Erected on East Coast of Vancouver Island

Victoria, B.C.—Negotiations have been completed between Hon. T. D. Patullo, Minister of Lands, and James H. Lawson, attorney for the Crown, regarding the establishment of a paper mill on the east coast of Vancouver Island. The first unit will be a 200-ton paper mill, but power sufficient for eventually supplying a mill capable of manufacturing 1,000 tons of newsprint a day is said to be available.

Contemplated development will lead to establishment of a new town of 4,000 to 10,000 persons in the central region of the island it is stated.

The Canadian Crown Willamette Company, Limited, was incorporated here at \$5,000,000 as a subsidiary to the Crown Willamette Paper Company, which already is operating four other paper mills on the Pacific Coast.

Dog Stars of the Chateau Team

Whether or not the cameraman chased these husky dogs over the countless miles of snow he claims in order to catch them with their tongues hanging out and out of breath is hard to tell. There is no denying however that he has obtained an admirable set of pictures. The victims of the chase are: at the left, "Jeff," and "Fang" at the right, two of the seven huskies of the Chateau Frontenac Dog Team. This team is led by "Mountie," a veteran with a romantic record of service in the far north, with the Royal Canadian Mounted Police.

The above classic canine study in black and white is representative in real life of a heavy strain of wolf blood, "Hootch," the mother of these prized dogs is half wolf. Visitors to the Chateau Frontenac for the winter sports season take never-ending joy out of their thrilling rides behind the Chateau team, being driven by Arthur Beauvais, an experienced musher. February 21, 22 and 23, Quebec will be the scene of the Eastern International Dog Derby, a gruelling 120-mile event in which some of the outstanding dog teams in America numberin gover 20, will be entered.
